ABOUT ME

Hi, My name is Jirayu Kanda , Nickname is nharm

I am an ordinary man, at looks live coding. Since I studying in college, I trained myself by renting a host to try and start studying how to make a website. That the composition of the website must contain what Like to learn the technologies that make it easier and more enjoyable for us to do it. And overcome technical challenges by conducting research and testing various solutions

Experience in my world :

For working in my world from my experience i use programming language Node.js, Vue, React, HTML, Javasctip and Pyhon. And knowleade for develop and impement with Docker, Docker-compose, Elastic, Redis, Memcached, MySQL, Mongo. For third party my knowleade use facebook api, google api and analytics. At last experience my knowleade for use server Digitalocean, Google Cloud, Amazon Cloud, Tencent Cloud

FOR KNOWLEADE FARMWORKER , CMS , TOOLS FOR DEVELOP ETC

Ubuntu	react	GitLab	Expressionengine
CentOS	Bower	CI/CD	OpenCart
